COLLECTORS.

"The pursuit and study of the Fine Arts in their various branches, have been a source of constant enjoyment to me in the intervals of business, and often of great solace and relief at trying periods, and this alone would be a pleadable indemnification for my investments, should they fail to be commercially reproductive. It is said, that Collectors usually have long lives, and I cannot help feeling that the cheerful exercise of the mind and body which belongs to the pursuit, warrants the assertion; and I hope in due time to say, *probatum est.*

INTRODUCTION.

The success of my last sale has encouraged me to give my patrons another chance to procure valuable additions to their Cabinets, at *their* prices. The present Catalogue consequently contains, I may say almost exclusively, pieces which I could have easily disposed of at private sale at *my* prices, without running the trouble, risk and expenses of an auction. But I am confident that now, as before, my patrons will not disappoint my confidence in them.

The first day's sale embraces exclusively the English and French Series. A glance over this part of the Catalogue will satisfy the most critical collector.

The second day offers a rare opportunity to collectors of American Coins, Pattern Pieces, Medals, etc., to enrich their Cabinets. Several of the pieces have rarely appeared in coin sales and are very unlikely to do so again, and others have *never before* been offered at auction.

The third day embraces the American Masonic Medals, and Centennial Medals, and by the courtesy of friends I am enabled again to offer a number of Medals *for the first time.* Then follow a small selection of Ancient Greek and Roman Coins; and finally, a number of *Rare Books* and *Relics of George Washington and the Penn family*, the authenticity of which is guaranteed in the most satisfactory manner.

I embrace this opportunity to present my thanks for the many signs of encouragement and esteem, as well as for favors received lately from so many places.

It is a valuable memento to those who

were educated within its walls, as well as to all who have a curiosity to see a true picture in silver or bronze, of the old Masonic Temple, built in part, at least, by William Morgan, who was a mason by trade, the noted author of 'Morgan's Exposure of Freemasonry,' for which he was said to have been kidnapped in 1826, and hurried past the door of this temple, on his way from Batavia to Canandaigua, and thence to Rochester and Lewiston, where he disappeared."
